

AUDIT REPORTS

2006-2012

Prepared by the Scottish Catholic Safeguarding Service
(formerly National Office for the Protection of Children and Vulnerable Adults)

25th November 2013

"The Catholic Church in Scotland is concerned with the lives, safety, wholeness and well-being of each individual person within God's purpose for everyone.

It seeks to safeguard the welfare of people of all ages who are involved in whatever capacity with the Church and its organisations.

As a Church community, we accept that it is the responsibility of all of us, ordained, professed, paid and voluntary members, to work together to prevent the physical, sexual, emotional abuse or neglect of children, young people and adults at risk."

'Awareness and Safety in our Catholic Communities 2007'

Introduction

Each year the Scottish Catholic Safeguarding Service (formerly National Office for the Protection of Children and Vulnerable Adults) in the person of the National Co-ordinator presents a report to the Bishops' Conference of Scotland at their November meeting which details an Audit of the eight dioceses in Scotland in relation to the work of safeguarding in the previous calendar year. For example the 2012 Audit was presented earlier this month to the Bishops' Conference. The process began with an audit in 2006, by 2007 the format was established.

The Audit contains details of how safe environments are created with disclosure checks on those involved with children and vulnerable adults in a Church setting. When the Disclosure Scotland scheme was introduced it was decided by the Bishops that all Clergy, anyone applying for seminary and all volunteers in parishes would be required to complete an Enhanced Disclosure, the most rigorous level. All employees of the Church engaged in work with children or vulnerable adults are required at recruitment to undertake an Enhanced Disclosure. This Disclosure scheme is presently being systematically replaced by the PVG (Protecting Vulnerable Groups) scheme.

As well as Disclosure/PVG Training plays an important role in creating safe environments. The current national safeguarding training programme developed by professionals within the Catholic Church is called "Awareness and Safety in Our Catholic Communities". The training programme includes a Welcome Guide for all volunteers in the parishes with clear guidance about appropriate safeguarding procedures and good practice. This training is mandatory and delivered by experienced and trained Diocesan safeguarding Trainers. The Audit contains details about the training undertaken annually.

Finally, the Audit presented to the Bishops' Conference contains details of any allegations which have been made and how these have been dealt with.

The Diocesan Structure

The eight Scottish dioceses¹ each have a Safeguarding Advisor, a Safeguarding Team, a Risk Assessment Team, and a system for the management of Sex Offenders. There are also Authorised Listeners to support survivors. Each parish has a Parish Safeguarding Co-ordinator (PSG) who is a volunteer who looks after the administration of safeguarding (2011 - 96% of parishes had at least one).

Each diocese asks parishes to complete an audit form towards the beginning of the year and these are collated by the diocese and forwarded to the Office of the National Co-ordinator where the annual Audit presented to the Bishops' Conference is collated.

¹ St.Andrews & Edinburgh, Aberdeen, Argyll & the Isles, Dunkeld, Galloway, Glasgow, Motherwell and Paisley.

Each Diocesan Advisor is also required (with the respective Bishop) to complete a Diocesan Audit. This captures annual data in respect to the following:

- Policies and Procedures in place in each Diocesan Office
- The structure and remits of the Safeguarding Teams
- Information about meetings held by the Safeguarding Teams
- Number of priests in active ministry
- Number of students in seminary and the date(s) of their annual training

This Report

This Report is the distillation of the detail of the reports from 2006-2012. Every effort has been made to ensure that for the protection of survivors no identification of individual cases can be made.

Enhanced Disclosure / PVG 2007-2012

These figures detail the number of priests in parishes who have undergone Enhanced Disclosure (2012 PVG - the number of priests who have become part of the PVG scheme). The volunteer figure is all of those in parishes, rounded to the nearest 100, who have any involvement with children or vulnerable adults and who have undergone Enhanced Disclosure.
